Dear Sir:

Pursuant to 37 C.F.R. § 1.97, the Examiner's attention is directed to the documents listed on the attached forms, which documents may be material to the examination of this application.

No inference should be drawn that any disclosure is equivalent to the subject invention. Also, the citation of the above-discussed documents is not to be construed as an assertion that more pertinent art could not possibly be in existence. Citation of any document herein is not to be construed as an admission that any subject matter disclosed in the document is

necessarily within the inventive field of endeavor, that any disclosure is necessarily prior in time to a particular date which may be relevant to the instant patent application, and/or that any disclosure is otherwise necessarily prior art with respect to the instant invention.

The right is also reserved to later set forth how the instant invention is distinguished over the disclosure of any document or other art, including the disclosure of those documents discussed herein, that may be cited by the Examiner in rejecting a claim in the present patent application.

- ☒ 2. As set forth in 37 CFR § 1.97(c), this supplemental information disclosure statement is being filed after the time period set forth in 37 CFR § 1.97(b) (see above) but before the mailing date of any of a final action under 37 CFR § 1.113, a notice of allowance under 37 CFR § 1.311 or an action that otherwise closes prosecution in the application.
